Comment:

CARB,

I recently heard about the Innovative Clean Transit Rule that you announced on August 7th. I strongly support this! It is about time we started moving to electric bus technology. I know that it is a recent invention, and I think we need to adopt it as soon as possible! I also know that a local (to me) San Francisco Bay Area company makes electric buses here in the USA and I hope that their products are used by transit districts all over the state! I am a frequent rider of public transit, and hope to ride an electric bus soon!

--Brian
